

Workshop Invitation

"Learning Without Borders"

22 November 2006, 5-9PM
Open Training Education Network
(OTEN), Strathfield

<http://learningwithoutborders.edublogs.org>

As a group of Graduate Diploma in Vocational and Workplace Learning students at UTS, we are running a one-off workshop called "Learning without borders" which will be focusing on technology for educators. Our key presenter is Steven Parker from Wollongong TAFE:

'Lets really focus on the benefits of networking because that's where it's at, networking will allow us to share capabilities ideas and project work. It will allow us to share resources even physical work spaces once the culture and internet connections are in place. The increase in shared knowledge and skills will be exponential as soon as that process gets started. The wonderful thing about networked professional development is it promotes something I see lacking , something I joke about; working together, networking promotes team environments and fosters a commitment to work towards the same goals for the benefit of all, that's somewhere where we have to get to...' Steven Parker - *'Empowerment Through Technology'* ICVET Presentation September 2005
http://networklearning.blogspot.com/2006_09_01_networklearning_archive.html

The attached flier provides further details regarding the workshop and how you can ensure that you don't miss out!

Tickets on sale until 15 November

Strathfield Site Location Map

Directions to the Strathfield Site

By Train

Leave Strathfield station via the Northern Exit, turn right into Everton Road and walk to the T-intersection and turn right into Wentworth Road. Enter at the main entrance and proceed to the site reception desk in the foyer of Building A.

By Car / Foot

If you are travelling along Parramatta Road, turn at Wentworth Ave and proceed to the Strathfield site which is at 51 Wentworth Road.

If travelling east along the Boulevarde, turn at the Morwick Street lights, then turn left into Wentworth Road and cross the railway bridge to the Strathfield site main entrance.

Parking

If attending an activity at the Strathfield site, street parking is available for a maximum of two hours. Metered parking is available all day, if required.

There are two parking stations near by. One is situated at Strathfield Plaza, Churchill Ave, Strathfield and the other at Westfield Plaza, Wilga Street, Burwood.

Both stations are approximately 10 minutes walk from the Strathfield site.
